Summary

React Frontend Developer with **2+ years of experience** building and shipping production-grade web applications. Strong in **React, Next.js, TypeScript**, and modern frontend workflows, with a proven ability to translate **Figma designs into scalable, accessible UIs**. Experienced working on real-world products including **fintech platforms, dashboards, e-learning systems, and admin panels**. Comfortable collaborating in Agile teams, integrating APIs, writing maintainable components, and delivering clean, user-focused interfaces

WORK EXPERIENCE

Oneness Academy | [links](#)

Mar. 2025 – Present

Mobile Application Developer - flutter

Full-time.

- Designed the **end-to-end UI/UX** for a mobile **e-learning platform**, translating product requirements into usable interfaces.
- Developed and maintained the mobile application using **Flutter**, delivering core learning and user-facing features.
- Integrated backend **REST APIs** and implemented **secure authentication flows**.
- Collaborated closely with product and engineering teams to define **user flows** and adapt the web experience for mobile.
- Contributed to continuous improvements in performance, usability, and overall application quality.
- Wrote **unit tests and integration tests** to ensure application stability and reliability.
- Implemented **over-the-air (OTA) updates using Shorebird**, enabling faster feature delivery and bug fixes without full app releases.
- **Deployed and maintained the Android app on Google Play Store**, managing release builds and updates.

Invictus Software

April. 2024 – Present

Mobile Application Developer - flutter

Part-time / Contract / Remote.

- Worked on a **fintech wallet application**, contributing to both **customer** and **merchant** experiences.
- Implemented **secure authentication flows** and integrated backend **REST APIs** within the Flutter app.
- Built **modular, reusable UI components** to support scalable feature development.
- Developed key features including **QR code-based payments, profile management**, and wallet-related workflows.
- Collaborated with the team to deliver features efficiently within **Agile sprints** and iterative releases.
- Contributed to improving development workflows and feature delivery efficiency across the project.

Binarycosmo

Jan. 2024 – Feb, 2025

React Developer - React Native - Supabase

Full-Time.

- Developed and maintained a **ride-hailing mobile application** using **React Native**, working on both **customer** and **driver** apps.
- Translated **Figma designs into production-ready UIs**, ensuring consistency across mobile screens.
- Integrated **REST APIs** and handled application state and data flow across features.

- Contributed to the **MVP development of a Hospital Management System**, including mobile, dashboard, and website components.
- Worked with **Supabase** for backend services, authentication, and data management. participating in sprints, planning, and reviews.
- Contributed to product and technical decisions to improve usability and overall application quality.

Lt Software

July, 2023 – Jan, 2024

Full Stack - Mern

Part-time / Contract / Remote.

- Converted **Figma designs into fully functional web interfaces** using React.
- Developed **RESTful APIs** with **Node.js** and **Express** to support core e-commerce features.
- Designed and managed application data using **MongoDB**, including schemas and CRUD operations.
- Integrated frontend and backend systems to deliver a complete, end-to-end e-commerce solution.
- Built both the **customer-facing website** and an **admin dashboard** for managing products and data.

Qinash.com

Aug. 2023 – Dec. 2023

Frontend developer Intern

Intern / Remote.

- Worked on the **admin dashboard**, improving usability and visual consistency across key screens.
- Built and refined UI components using **React** and **Bootstrap**.
- Collaborated with the team to implement new UI features and enhancements based on product needs.
- Fixed layout issues, responsiveness bugs, and styling inconsistencies in existing interfaces.
- Gained hands-on experience working with a production codebase and real user-facing features.

EDUCATION

Microlink Information Technology College

Aug 30, 2024

Degree in Computer Science

City, ST

SKILLS

Core Skills: React Web Development, Component-Driven UI Architecture, Design-to-Code (Figma → React), API Integration & State Management.

Programming Languages: JavaScript, TypeScript, Dart, Python

Frontend: Flutter, React, React Native, Next.js, Expo, Vite

Backend: Node.js, Express.js, NestJS, GraphQL, FastAPI, REST APIs

Tools: Git, Postman, Figma, Neovim.

Cloud/Database: MongoDB, PostgreSQL, Firebase, Supabase
